Core Curriculum for Medical-Surgical Nursing, 5th Edition

Editor: Heather Craven, PhD, RN, CMSRN

Prepare for certification exams and stay current on medical-surgical trends and topics. New and experienced medical-surgical nurses will find this is the definitive resource to prepare for the medical-surgical nursing certification exam. The Core provides the latest information in medical-surgical nursing practice, making it very useful when you want to stay current on specific practice areas, trends, and topics. Presented in an easy-to-use topic and outline format, this comprehensive resource provides the foundational body of knowledge for medical-surgical nursing practice. Each chapter begins with the key points necessary for comprehension and success on the certification exam. Medical-surgical units will also find that the outline format makes this book a useful clinical reference to help ensure your nurses are providing excellent patient care. Readers will benefit from the expertise of 29 authors and 32 content reviewers.

600+ pages in 29 chapters.

Care Coordination and Transition Management (CCTM) Core Curriculum

The CCTM Core covers 13 dimensions, competencies, and activities. There is an introduction chapter, a chapter dedicated to the transition from acute care to ambulatory care and the critical nature of hands-off in ensuring patient safety and quality of care. Two chapters are devoted to technologies that provide decision support and information systems for all dimensions of care coordination and transition management: one focused on informatics and one focused on telehealth nursing practice. The text is evidence based and is organized to include definitions, learning outcomes and objectives, a table of knowledge, skills, and attitudes (KSAs), and nationally recognized core competencies for quality and safety education for nurses (QSEN), inter-professional collaborative practice, and public health nursing competencies. The text is written for nurses in all settings; from ambulatory care to hospitals, extended care facilities to student nurses. Only AMSN members may purchase the CCTM Core through AMSN. All others must purchase through AACN at aacn.org.

Care Coordination and Transition Management (CCTM) Review Questions

Multiple choice test questions that cover the array of topics that may be covered on the CCTM Certification Exam. Test your knowledge and identify your weak areas. This publication is referenced to the CCTM Core Curriculum. Only AMSN members may purchase the CCTM Review Questions through AMSN. All others must purchase through AACN at aacn.org.
